The new “WORKSPACE” cabinet combines the durability of a standard 19” cabinet with the aesthetic appearance of conventional office furniture .

Designed with the installer in mind the “WORKSPACE” cabinet incorporates lockable and remove able doors and side panels as you would expect from its steel counterpart .

Manufactured in the UK , the Cabinet chassis is of a welded steel construction and powder coated Black to RAL 9005 matt . A range of melamine wood grain faced MDF BSEN 312 part 3 - 5 , chosen for its sound reducing qualities , provide the standard cabinet finishes .

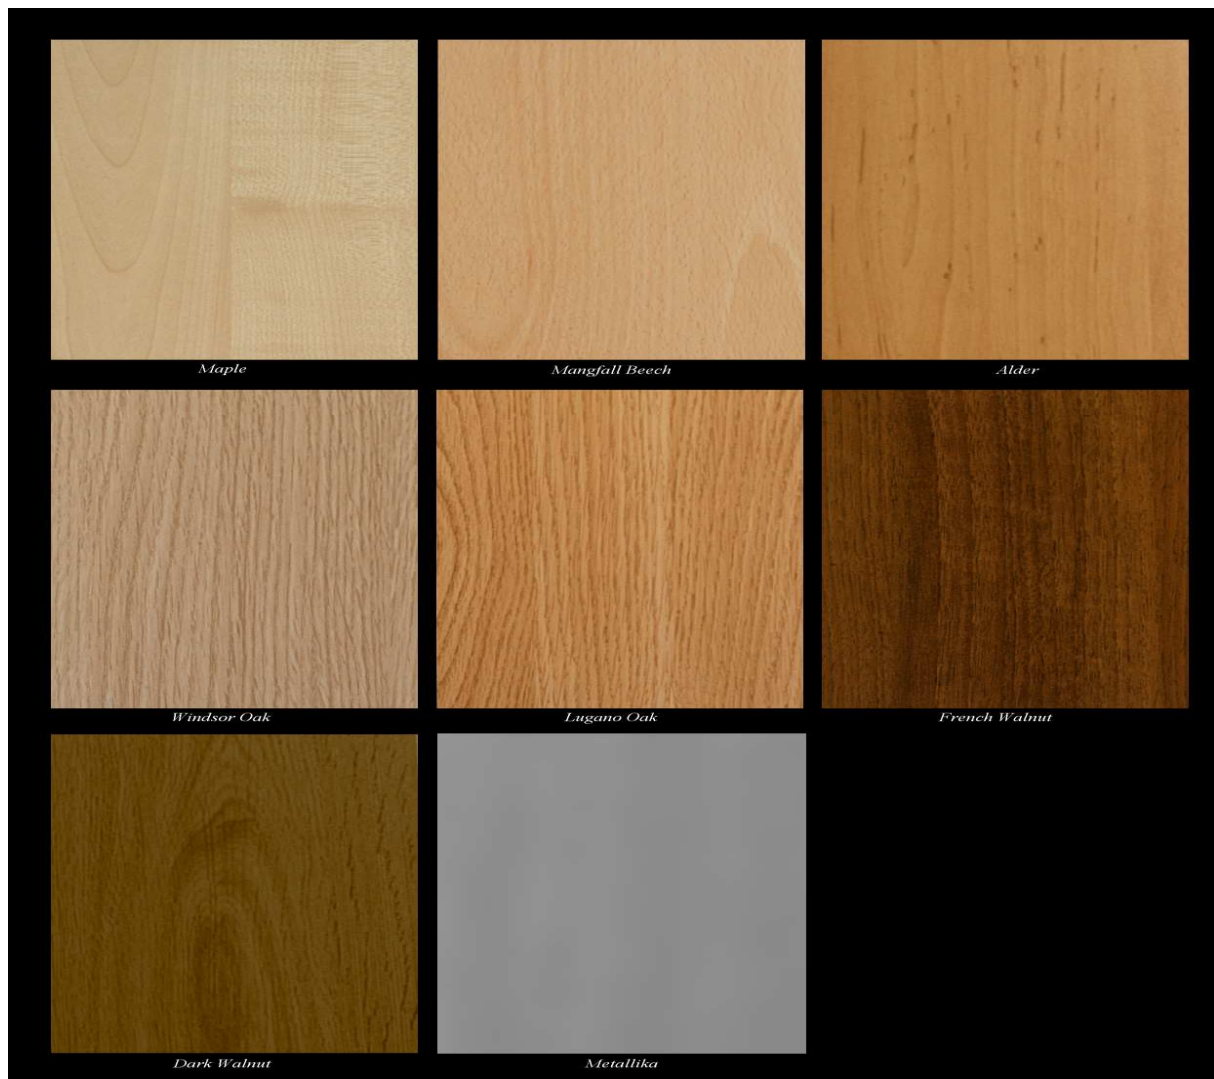

An additional range of finishes are available as special order , these will include decorative veneered MDF , finished in our workshops to your specification . A flame retardant version is also available to *Class O Fire Propagation to BS476-6&7* and *Euroclass B , Fire Propagation to BSEN 13501-1* .

We also offer a bespoke matching service where upon your “ WORKSPACE ” cabinet can be matched to existing furniture , and finished in our workshops to the highest standard.

Standard Painted Finishes are also available .

Each “WORKSPACE” cabinet is supplied on Castors (adjustable feet are available) with a Lo Noise Fan Tray and a 6 way Horizontal Power Supply as standard . A full compliment of accessories complete the range .

The Following Finishes are available as standard
